

Nepal Election 2082

Data-driven analysis of candidate demographics, party performance & voter turnout

METHODOLOGY

How the Data Was Built

JSON Integration

Candidates, parties & constituencies from nepalvotes.live & result.election.gov.np

AI Assistance

ChatGPT extracted & validated constituency coordinates in CSV format

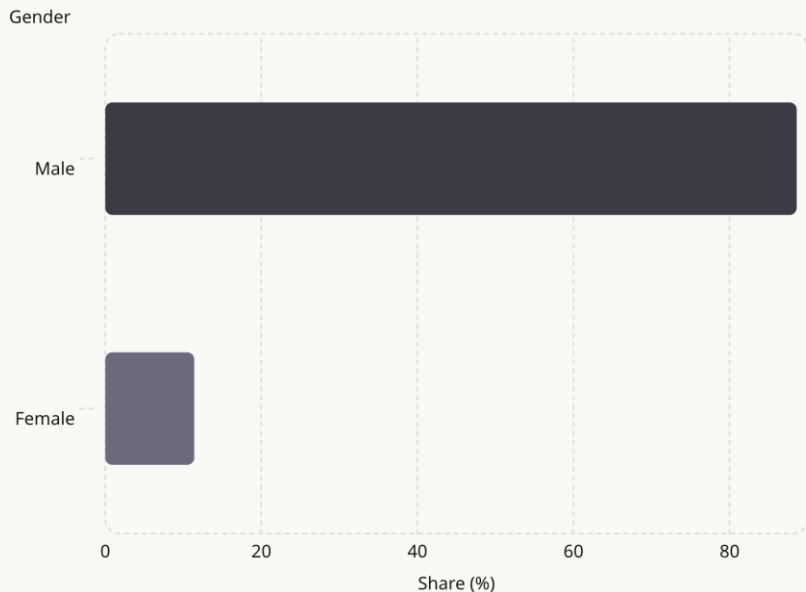

Web Scraping

Candidate photos & party symbols pulled from election commission website

DEMOGRAPHICS

Candidate Gender & Age

Age Distribution

Normal curve centered around **40–50 years**

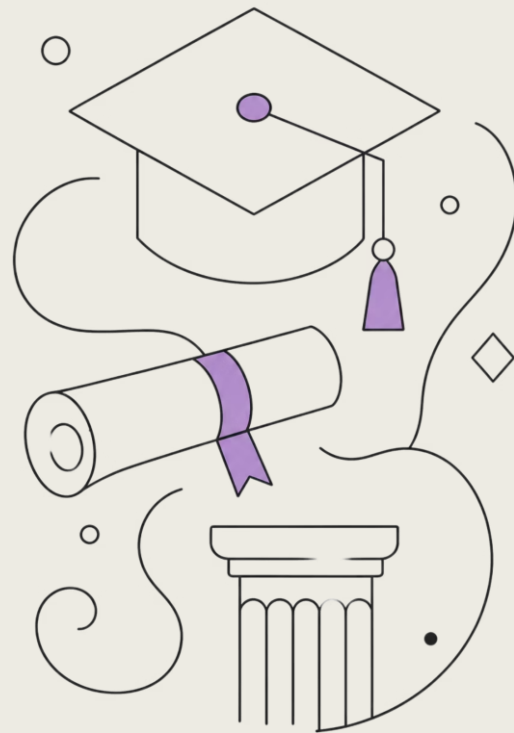

Youth Representation

31.0% of all candidates classified as youth

DEMOGRAPHICS

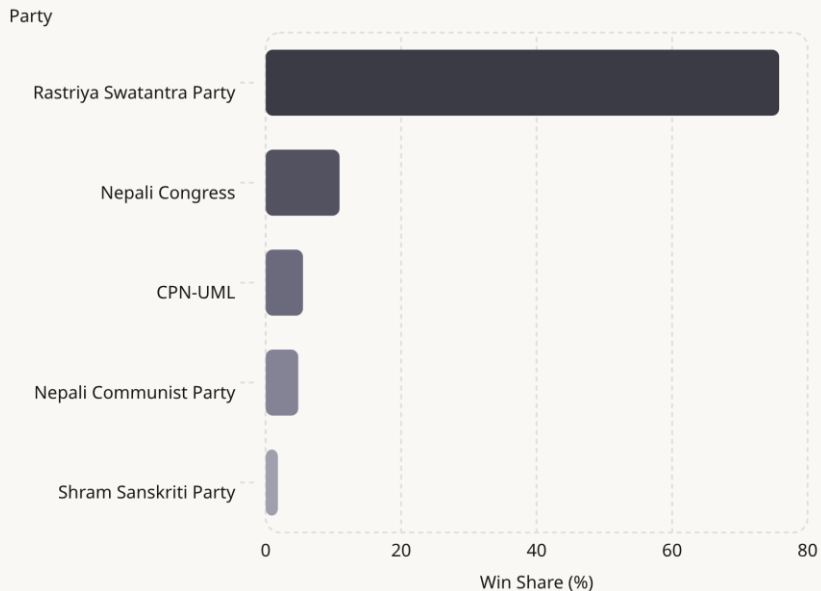

Education Correlates with Votes

Candidates with **Master's Degrees** or **Doctorate/PhD** earned the highest average votes — higher qualifications correlate with voter confidence.

PARTY PERFORMANCE

RSP Dominates the Election

Rastriya Swatantra Party

125 total wins

44.33% total vote share

While "Swatantra" (Independent) had the highest candidate frequency, RSP dominated actual victories.

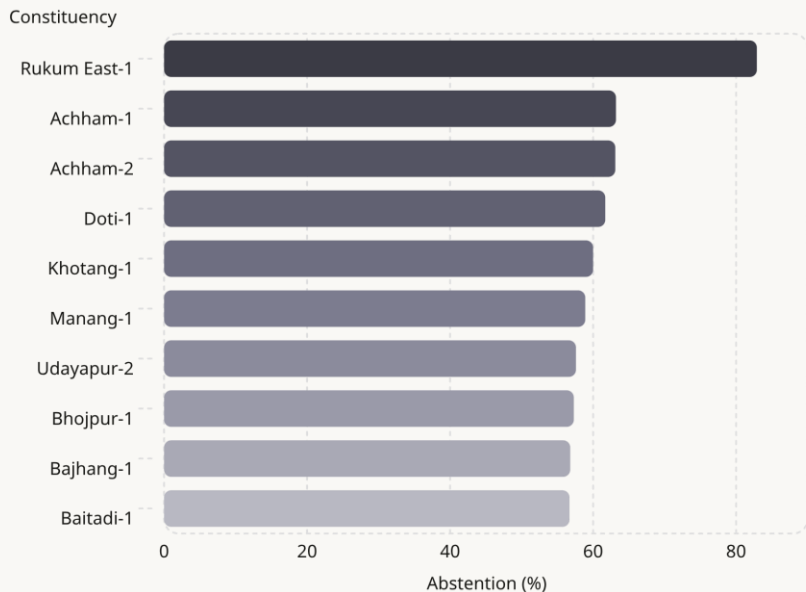

CONSTITUENCY ANALYSIS

Overall Voter Turnout: 55.9%

Several constituencies experienced remarkably high abstention rates
— particularly in remote western and eastern regions.

Top 10 Highest Abstention Rates

Key Insight

Rukum East-1 led abstention at **82.9%** — over 4 in 5 voters did not cast a ballot.

TOP WINNERS

Candidate Spotlight

Balendra Shah
RSP · Jhapa-5 · 68,348 votes

Indira Rana Magar
RSP · Jhapa-2 · 60,110 votes

Sobita Gautam
RSP · Chitwan-3 · 59,277 votes

KEY FINDINGS

What the Data Reveals

RSP Sweep

75.8% win share, 125 seats, 44.33% vote share

Gender Gap

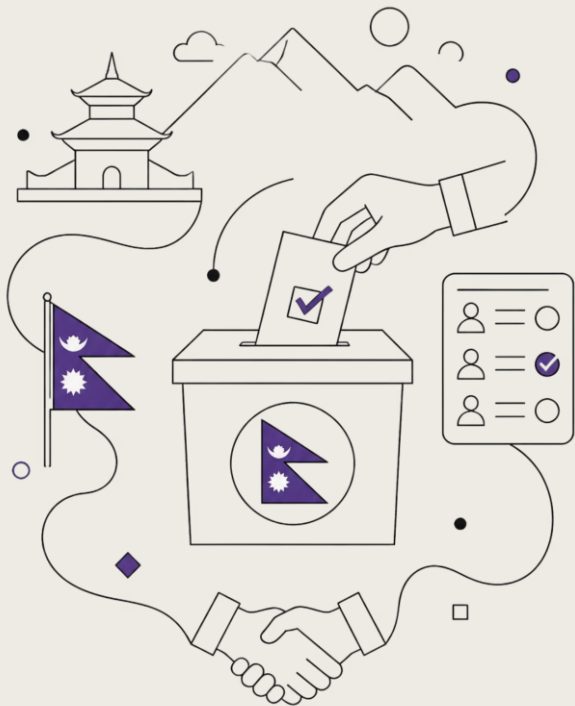

88.6% male candidates vs. 11.4% female

Education Effect

Higher degrees → higher average votes

Turnout Crisis

Overall 55.9%; Rukum East-1 at 82.9% abstention

LIMITATIONS

What the Data Can't Capture

Electoral outcomes are shaped by factors **outside this dataset**:

- Candidate popularity & social influence
- Voter relationships & community ties
- Party-level campaign strategies

❏ Analysis relies on indirect indicators — qualifications & residential backgrounds — limiting full understanding of electoral drivers.
